

Glossy

Premium alumina

8.5x11 in sheets

10.8 mil thickness

Waterproof technology

235g/m² weight

productivity

Indelible impressions to last a lifetime

This high-quality photo paper is designed to provide the most realistic photographic images. Specially formulated to work with most inkjet printers, this letter size photo paper features an alumina layer that intensifies blacks, enhances color definition and contrast. Its surface optimizes ink absorption and the drying cycle of the paper, allowing the immediate framing of photos straight from the printer while preserving the brilliance of each print.

Features:

- Instant-dry formula
- Waterproof technology
- Alumina coated paper delivers fade resistant prints, consistent quality and color stability
- Durable and highly-resistant photo paper designed to withstand rough treatment
- Compatible with most inkjet printers
