

# Ellipse

Optical mouse

The unique design of the Ellipse Wireless Mouse brings together the portability of a travel mouse and the superb accuracy of a high resolution optical mouse. This powerful 3D, 3-key mouse works up to distances of 12 meters, and has an elaborate 5-level energy-saving system for extending battery power up to three months. Sporting an ambidextrous design and a cool two-tone color combination, the Ellipse is not only a stylish accessory, but one of the sharpest you will ever find!
