

Phantom

Optical mouse

No batteries required, no tangled wires and its ultra compact size make the KMO-140BK Optical Mouse the perfect companion for people always on-the-go. Use on an airplane tray, a tiny desk or wherever space comes at a premium. Its ambidextrous design with soft grip sides allows you to use it comfortably in either hand. Boasting the latest in optical technology, the KMO-140BK ensures accurate cursor control and smooth tracking on virtually any surface.
