The ultimate listening experience...unraveled

The KWS-650 BluBlast Speaker System redefines the way you experience digital music. Featuring Bluetooth® wireless technology, you can now say goodbye to that unsightly cable clutter forever. By adopting the Advanced Audio Distribution Profile (A2DP), the system streams music from any Bluetooth®-enabled device within a range of up to 30 meters (100 ft.) from the audio source. With two full range satellite speakers and a powerful subwoofer, this system blasts 44 watts of formidable sound, no matter the source!

- Seamless integration of audio devices
- Pairs easily with any Bluetooth® enabled devices wirelessly streams music from up to 30 meters away from the audio source
- Wirelessly streams music from up to 30 meters away from the audio source
- An RCA to 3.5mm stereo cable provides an additional connection for wired playback
- Energy efficient promotes lower power consumption
- Built in high-power amplifier with brass and volume controls
