# ≪ ION 300
WIRELESS PCI ADAPTER ≫

Nexxt Solutions ION 300 is a Wireless PCI Adapter designed for the very latest wireless standard IEEE802.11n, also compatible with the previous IEEE802.11g/b standards. Its fast transmission rate gives you a better performance – 300Mbps - and reduces dead spots in the coverage area.

The ION 300 can reach up to 300Mbps when connected to a Nexxt Stealth 300 (ARN00301U1) wireless router. This high speed of wireless networking makes it ideal for net activities like online gaming, software downloading and Voice over IP, it's also perfect for watching movies and photos over your LAN.

≫ FEATURES
